
Machinery Imports

As the sole, independent UK distributor of key industry brands, we are dedicated to bringing you market-leading ranges in professional woodchippers and mowers.

Our brands include:

Ohashi woodchippers are rapidly becoming the go-to compact tracked chipper.

Whilst much more compact than competitor models, **Ohashi** woodchippers still retain the unique ability to process large timber.

Models range from 3" (75mm) up to 6" (150mm) capacity – their compact, transportable and low maintenance design provides multiple benefits and labour saving potential. Our machines deliver high quality, environmentally-friendly solutions for you – machines that are renowned for their ingenuity, productivity and safety.

We also have an experienced machinery dealer network throughout the UK to assist with sales, parts and service.

The Ohashi way

Simply put, Ohashi are dedicated to the development of innovative machines – through a reliable, technology-based approach that positively contributes to the environmental challenges faced by the world today.

Since 1988, Ohashi have developed agricultural and forestry-focused products that are low-impact – providing a high level of performance and a low level of pollution. They have become widely used throughout the European market, earning a solid reputation for advanced environmental and safety standards.

After efficiently processing trees and branches, our chippers re-purpose the waste to create environmentally-friendly by-products – including organic fertilizer and mulching material.

The Ohashi logo represents our relationship with the natural world, its limited resources, and how to act responsibly for the benefit of generations to come.

3-INCH WOODCHIPPER **ES73G**

PETROL **SELF-PROPELLED**

- Automatic infeed with 'No-Stress' system
- Only 66cm wide - you can take it almost anywhere!
- Chip branches from gardens and roadsides
- Made in Japan - quality and reliability assured
- Maximum power, maximum mobility - compact, light-weight body
- Honda GX200 7HP engine

Max diameter 7 cm	Weight 200 kg
Size 1690 x 660 x 1370 mm	Max output 7 HP
Transport Mode 1300 x 660 x 1440 mm	

4-INCH WOODCHIPPER **ES101GH**

PETROL **SELF-PROPELLED**

- Hydraulically powered automatic 'No Stress' infeed rollers
- Only 73cm wide - it can go through doors and narrow spaces
- Vegetation management in gardens, orchards, public green spaces and forests
- Made in Japan - quality and reliability assured
- Maximum power, maximum mobility - compact, light-weight body
- Honda GX270 9HP engine

Max diameter 11 cm	Weight 390 kg
Size 2120 x 730 x 1540 mm	Max output 9 HP
Transport Mode 1660 x 730 x 1610 mm	

5-INCH WOODCHIPPER **ES131GH**

PETROL **SELF-PROPELLED**

- Hydraulically powered automatic 'No Stress' infeed rollers
- Only 73cm wide - it can go through doors and narrow spaces
- Chip trees and branches for volume reduction, compost or mulching
- Made in Japan - quality and reliability assured
- Maximum power, maximum mobility – compact, light-weight body
- Honda GX390 14HP engine

Max diameter 13 cm	Weight 390 kg
	Max. output 14 HP
Size	2180 x 730 x 1500 mm
Transport Mode	1660 x 730 x 1610 mm

RRP
£12,600
